**FISCAL IMPACT STATEMENT**

**LS 7483**

**BILL NUMBER:** HB 1403

**DATE PREPARED:** Feb 27, 1999

**BILL AMENDED:** Feb 24, 1999

**SUBJECT:** Advanced Practice Nurse Services.

**FISCAL ANALYST:** Alan Gossard

**PHONE NUMBER:** 233-3546

**FUNDS AFFECTED:** ☒ **GENERAL**  
**DEDICATED**  
**FEDERAL**

**IMPACT:** State

**Summary of Legislation:** (Amended) This bill adds services provided by advanced practice nurses to the services that are provided under Medicaid, so long as those services are rendered in a school based clinic, community health center, or federally qualified health center. The bill provides that an advanced practice nurse is eligible for direct reimbursement from Medicaid for providing services in a school based clinic, community health center, or federally qualified health center.

This bill changes the certification process for a physician assistant to a licensure process. A licensed physician is authorized to delegate prescribing privileges to a physician assistant. The supervising physician may supervise two physician assistants. A physician assistant is authorized to certify the health status of patients and to provide care in a disaster or emergency situation without liability unless the physician assistant is grossly, willfully, or wantonly negligent.

**Effective Date:** July 1, 1999.

**Explanation of State Expenditures:** (Revised) According to the Office of Medicaid Policy and Planning (OMPP), the Medicaid program currently reimburses advanced practice nurses in the settings described in the bill.

The Health Professions Bureau oversees the state regulation of physician assistants. The Bureau will experience additional expenses associated with issuing new wall licenses to those practitioners who currently have wall certificates that reflect certification status. The Bureau will also dispose of current supplies of blank wall certificates and replace them with new wall licenses. New applications reflecting the licensure status instead of the certification status would have to be ordered. The Bureau would also experience additional expenses associated with notifying all current practitioners.

The Bureau would also incur additional expenses associated with allowing physician assistants prescriptive

authority. The Bureau would need to discard current controlled substance registration (CSR) applications and modify the form to include physician assistants. The Physician Assistants Committee would also need to meet monthly to develop new rules to implement the above. (The Committee currently meets quarterly.) The Bureau will also experience an increase in telephone inquiries about the proposed changes. Total increased expenses are outlined below.

<b>Costs Associated with Licensing Physician Assistants and Allowing Prescriptive Authority</b>		
<b>Expense</b>	<b>FY2000</b>	<b>FY2001</b>
Per Diem	\$3,000	\$1,500
Travel	9,500	4,750
Printing	4,500	2,250
Postage	5,000	2,500
Telephone	1,500	750
Supplies	1,500	750
<b>Total</b>	<b>\$25,000</b>	<b>\$12,500</b>

The funds and resources required above could be supplied through a variety of sources, including the following: (1) Existing staff and resources not currently being used to capacity; (2) Existing staff and resources currently being used in another program; (3) Authorized, but vacant, staff positions, including those positions that would need to be reclassified; (4) Funds that, otherwise, would be reverted; or (5) New appropriations. As of 1-31-99, the State Personnel Manning table reported that the Bureau had four vacancies; however, the Bureau intends to fill these positions. With respect to reversions, the Bureau reverted \$223,413 in fiscal year 1997-98 and \$214,707 in fiscal year 1996-97. Ultimately, the source of funds and resources required to satisfy the requirements of this bill will depend upon legislative and administrative actions. The bill contains no appropriations.

**Explanation of State Revenues:** (Revised) Indiana currently certifies 177 physician assistants. The cost for an initial application is \$30, and the cost to renew a certification is \$20 biennially. Revenue collected in fiscal year 1997 equaled \$1,400. Revenue collected in fiscal year 1998 equaled \$2,640. The proposal may affect the number of applications and the amount of renewal fees that the Bureau collects. The specific impact, however, is indeterminable. License fees are deposited in the State General Fund.
